NEWS AND UPDATES FOR RETIREMENT PLAN SPONSORS AND FIDUCIARIES

Tips for Preventing Uncashed Retirement Checks

Managing uncashed retirement checks may be considered a nuisance by plan administrators. Nevertheless, the employer still has fiduciary responsibility when a former employee fails to cash their distribution. Search efforts to locate a missing plan participant consume time and money and may fail to locate the participant. Likewise, going through the process of turning over dormant accounts to the state can also consume time and resources.

Decrease the burden of uncashed checks by:

1. Discussing with terminating employees during the exit interview the options for their retirement plan. Employees may forget they have a company-sponsored retirement plan, or don't know how to manage it.
2. Reminding departing employees that they can roll over their retirement assets into their new employer's plan. Your plan's service provider or the new employer can answer questions the former employee may have about the rollover process.
3. Letting employees with an account balance of \$1,000 or less know they should expect to receive a check in the mail after a certain amount of time.
4. Having the employee verify their current address to where the check can be sent.

Remember, fiduciary responsibility and liability extends to terminated employees with assets in the plan. This responsibility includes delivery of all required distributions and all fiduciary prudence responsibilities. Stay in touch with this important group.

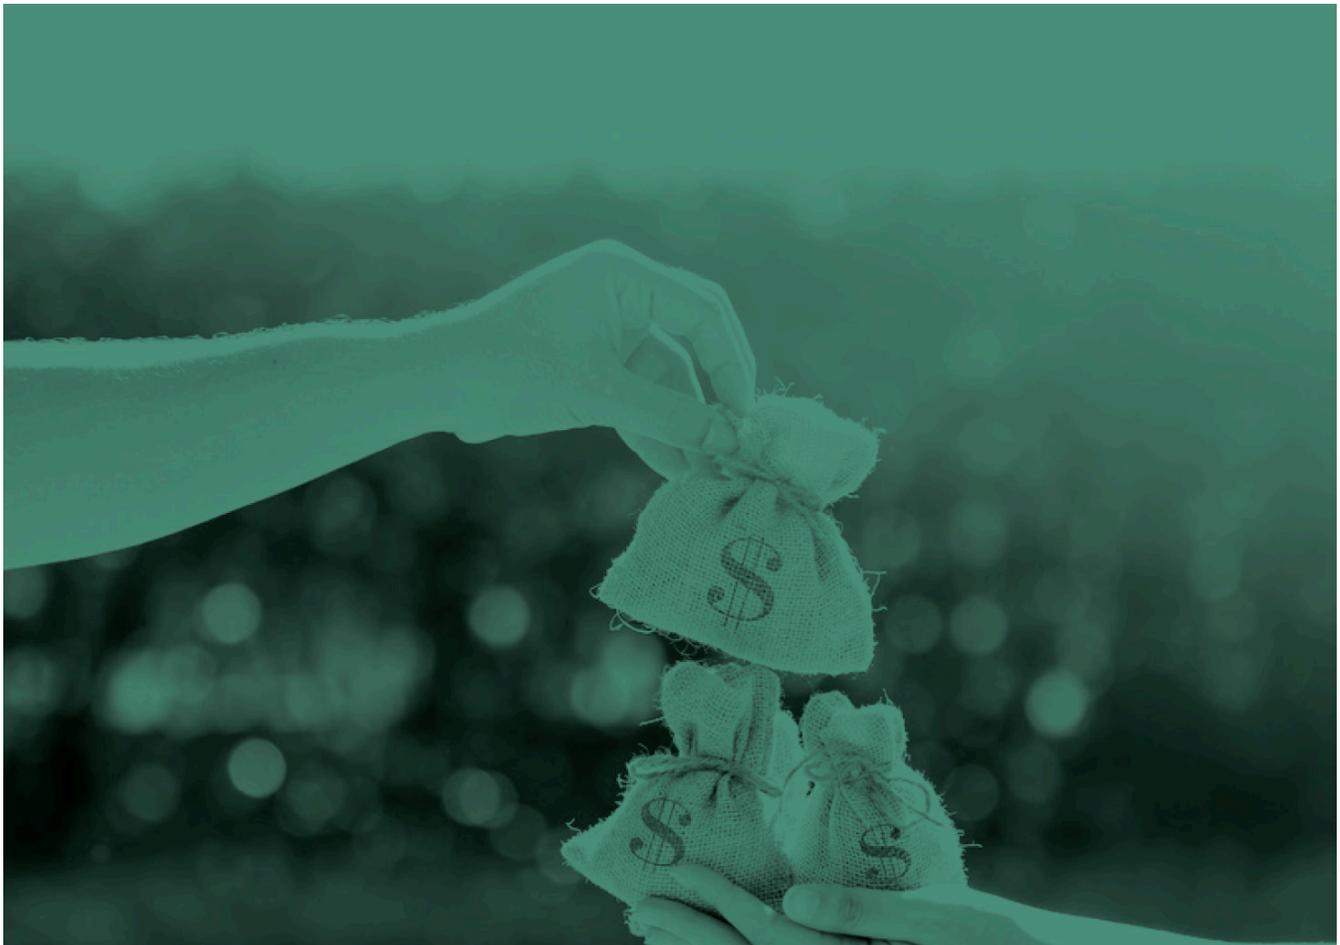

The Five-Year Clock for Roth Withdrawals

For most investors, it's important to know that there is a five-year waiting period for tax-free withdrawals of earnings, and it is applied differently, depending on if you made Roth IRA contributions, converted a traditional IRA to a Roth, rolled over Roth 401(k) assets or inherited the Roth account.

The five-year clock starts with your first contribution to any Roth IRA—not necessarily the one from which you are withdrawing funds. The clock rule also applies to conversions from a traditional IRA to a Roth IRA. (Rollovers from one Roth IRA to another do not reset the five-year clock.) Once you satisfy the five-year

requirement for a single Roth IRA, you're done. Any subsequent Roth IRA is considered held for five years.

If you have a Roth 401(k), those have their own clock (Treasury Regulation 1.402A-1, Q&A-4(b)). If you open a new 401(k) with a new employer, that Roth 401(k) has its own clock. If you move an older 401(k) to a newer 401(k) with a new employer, the old clock is the one that counts. In other words, I would keep the Roth money from a 401(k) plan separate from other Roth IRAs to avoid issues over whether the five-year clock has expired.

Good Health is the Best Wealth

Believe it or not, staying healthy just might make you wealthy. With small lifestyle changes and healthy choices, you may reduce your annual healthcare costs and increase your income. These lifestyle changes can be as simple as limiting your salt intake or taking your prescribed medication regularly.

For example:

Alisha is an average-managed patient and Jasmine is a well-managed patient. Alisha has blood pressure of 150/95, sometimes forgets medications, sometimes doesn't follow her suggested diet and is an occasional smoker and drinker.

Jasmine takes her prescribed medication, exercises 30 minutes a day and five days per week, has moderate alcohol intake, chooses healthy fats, limits dietary salt and quit her smoking habit.

Alisha and Jasmine are both 45 years old and both sought medical treatment for high blood pressure. Alisha doesn't follow the lifestyle changes her doctor suggested, whereas Jasmine diligently follows her doctor's recommendations. With Jasmine's small changes she saves more than \$1,000 in out-of-pocket healthcare costs. Additionally, Jasmine's combined pre-retirement and in-retirement savings will be \$89,456 more than Alisha, as shown in the table below.

Annual Out-of-Pocket Healthcare Costs:

	Alisha	Jasmine	<i>Jasmine's savings in Health Expenditures</i>
Age 45	\$2,477	\$1,286	\$1,192
Age 64	\$13,936	\$7,343	\$6,592
Total Pre-Retirement	\$138,288	\$72,591	\$65,697
Total In Retirement	\$51,790	\$28,031	\$23,759
Grand Total	\$190,078	\$100,622	\$89,456
